Alx Klive, Founder / CEO, 360 Designs

BIOGRAPHY

Alx Klive is Founder and CEO of 360 Designs - a globally recognized, Los Angeles based Live VR production and technology company. With a focus on TV-like workflows, the company's high-end Mini EYETM cameras and StitchBoxTM products have been snapped up by the likes of Google, MTV, PBS, CNN, Red Bull, Nvidia and AMD. On the production side, 360 Designs has produced numerous tent-pole events - such as the Oscars, SXSW, Champions League, a concert with Bee Gees' legend Barry Gibb, and the 2017 Eclipse. The company consistently innovates - building the world's first live streaming 6K VR drone, gyro stabilized 360 remote cameras, and developed a patent-pending approach to live 360 broadcasting it calls Lean Back VRTM.

Alx and his team employ a creative approach to live 360 production on par with live television production. As Executive Producer, Alx leads a team of talented professionals, pioneering the very future of entertainment.
